GOVERNOR.

DR. H. H. YOST,

PRACTICAL AND SCIENTIFIC

Pirst Door North of Postoffice.

Please do not understand that I am not thankful for the liberal patronage of the people of Wichita, for it has far surpassed my expectations. With a thousand "Thank your" for the mtelligence you have already shown in coming forward and obtaining what will save you that which money cannot buy—VISION,—I still want you to continue to come, although the weather is dreadful hot.

Like all the rest of mankined. I am willing to work for money. With me it is the few paltry dollars that is in it. With you it is a matter of far greater importance—one that cannot be computed in dollars and cents. So come along and I will stand the hot weather as long as I can do good, and at the same time make some money, which is every man's duty.

But you that live in town come early—come in the cool of the day; come before the crowds begin to come from the country, as mistakes are inshe to occur undersuch effectmentances. Of course mistakes are corrected should there be any. But we don't want to make any, and seldom will if ample time is allowed. But allow me to impress on your minds the fact that the proper selection of spectacles to correct the vision, and assist aftere in retaining the nor mad condition of the eye, is a matter that cannot be too carrelly attended to, and should not

vision, and assist afture in retaining the nor mal condition of the eye, is a matter that cannot be too carefully attended to, and should not be done in haste.

If you are rich! don't want all your wealth for a pair of my lenses. While I am no cheap optician, dealing in cheap goods, I will not ask of you more than you are willing to pay after seeing what I can do for you. If you are poor don't let poverty keep you away. The Lord knows that if anybody needs good sight it is the poor. So come and see me, and I promise you the same attention and same lenses that the rich have, and at a price that you are able to pay.
